Advanced Electronic LED Signs

Innovative Programming Software

The combination of our Outdoor Three Color displays and our exclusive software package, SunNet Pro, provides you with a super powered marketing tool. These displays are quick and easy to program and edit:

- » Text
- » Video Clips
- » Your Logo
- » Images
- » Slide Shows
- » And More...

Wireless connectivity is standard with all our OST Displays. Optional Ethernet connectivity makes it easy to network, edit and send messages to your sign through the internet, or remotely from any location.
